They were also digging ditches and filling in deep ditches. The trencher is working great with the new chain.

Sal Fedele made a motion to award the contract to National Lime and Stone for 4300 Tons of Driving Surface Aggregate at \$ 23.25/ton. Steve Rathmann seconded. Motion carried unanimously.

After discussing options with three local contractors, Engineer Mark Corey recommended a blended bid for the repairs to Wilson Road. The area at Route 89 will be dug out and drainage tile installed. The heave in the concrete by the hill will be removed. Township owned millings will be used on the berms. An asphalt course will be applied to the entire width of the road, including berms. Mark Corey will prepare the bid specifications and packets, and advertise for opening, with award at the June 29th meeting.

Upfitting of the recently purchased Oshkosh was discussed. Using equipment from the 1980 Oshkosh was discussed. Hydraulic line work would be priced through Trux, Inc.
